

AGS Technology™ provides a sensitive dangerous gas detector that is easier to use and costs less than anything on the market today.

It requires no routine calibration and we warranty monitors and sensors for five years.

EMS and Other First Response Teams can own an AI-1100 Airspace CO Monitor for less than \$100.00 per year. No more unknown exposures to CO for you, or your patient.

CO alarm runs can be handled efficiently and cost effectively with our AI-1200 monitor. Automated operation and a full time digital readout will equip anyone to respond with minimal training and expense.

So much easier to use and less expensive to own, you should consider replacing existing monitors rather than replace their sensors.

UTILITY & GAS WORKERS - Our AI-1201 CO and Methane Monitor offers protection at a very affordable price - and the lowest cost of maintenance.

Dependable, easy to use
CO and Methane protection
at the most affordable price.

Reliable AGS Technology™ - consistent solid state sensor performance.

Low Maintenance - no routine calibration.

Easy to Use - simple on/off with single alarm silence button.

Cost Effective - low cost of ownership.

Lightweight, Rugged Design - weighs just 4.8 oz. with batteries!

Portable - shirt pocket size, measures just 3.9 x 2.3 x 0.9 inches!

Certified Intrinsically Safe - approved by Underwriters Laboratory Inc. for use in Class 1, Division 1, Groups A, B, C, and D environments.

Low Battery Warning - battery low and battery dead indication.

Audible and Visual Alarm Indicators - alarms at CO levels of 30, 60 and 120 ppm and at Methane level of 5000 ppm.

Vibrating Alarm Indicator Option - alerts user to danger even in noisy environments.

CO and CO with Methane Versions Available - more functionality for little added cost.

Data-Logger Versions Available - record ambient gas levels for later analysis.

Specification

Size: 3.9 x 2.3 x 0.9 inch
(99 x 58 x 23 mm)

Weight: 4.8 oz. (136g)

Battery: (2) AA Alkaline

Alarm Indicators: Visual: high intensity LED
Audible: 86 dBA @ 10cm typical

Alarm Set Points: CO: 30, 60 and 120 ppm
Methane: 5000 ppm

Environmental Ranges: Temperature: -4° to 113°F (-20° to 45°C)
Humidity: 10 to 95% RH
Pressure: 15500 to -1300ft (420 to 795 mmHg)

Warranty: 5 Years

Due to on-going product enhancements, prices and specifications are subject to change without notice.

Let the engineers at Airspace help you detect dangerous gases.
